## Eastern Star Lodge.

It is likely that steps will be taken shortly towards the organization of a chapter of the Order of the Eastern Star, the ladies' auxiliary to the Masonic fraternity. The two Masonic bodies of this city have enjoyed remarkable growth during the past year and now the ladies of Masons believe the time is ripe for them to get a chapter into working order.

The Fuller company gets all of the stock and buildings of the retiring corporation. The stock will be moved to the Fuller yard in the north part of town.

## The Compulsory School Law.

The compulsory school law passed by the last legislature requires all children between the ages of 8 and 16 years to attend school regularly unless excused for some one of the exemptions. Under this law, a child who stays away from school, without a valid excuse is a truant and if the parents or guardians do not compel them to attend school they are subject to arrest and punishment.

## BOY LOSES EYE.

Son of George Richards Maimed For Life By Stray Bullet.

The 9-year old son of George Richards suffered the loss of his left eye a few days ago by a stray bullet fired from a shot gun in the hands of some small boys.

The officers, it is said, have been unable to ascertain who the boys were that are responsible for the accident.

This is another case where parents should exercise better espionage over their children. Small boys should not be permitted to handle firearms of any kind. There are some parents in this town who let their youngsters do just about as they please. The result is, they are making good progress toward becoming candidates for terms in the reformatory, if not in jail.

## "PINKEY" DOING DUTY ON CHAIN GANG.

In the district court this week, the case of the State of Nevada vs. Jay Martin, came up in the shape of a motion for an appeal from Justice Alfred Perkins' court.

Judge Brown, however, after going into the details of the case sustained the judgment of the lower court and ordered the defendant remanded to the custody of the sheriff.

Martin, or familiarly known about town as "Pinkey," was arrested some time ago, on a complaint sworn to by Sheriff Smith, as being a lewd and dissolute person, tried in the justice court, found guilty and sentenced to 20 days in the county jail.

The particular offense with which "Pinkey" was charged was that of residing in a house of ill-repute and otherwise holding communion with women of the underworld; which was admitted by the defendant in the trial before Justice Perkins. "Pinkey" endeavored to justify his conduct, however, on the ground that he was at various times employed as a musician in the house in question.

A feature which did not mitigate in "Pinkey's" favor was the fact that he had deserted a wife—declared by a large circle of friends to be of good reputation and therefore highly esteemed, also a child 4 years of age. In the meantime, the musician is doing time on the chain gang.

Justice Perkins released the defendant on a \$250 cash bond, which, since the case has been disposed of by Judge Brown, has been returned to the woman who was a willing contributor to his downfall.

## MINERALIZATION IN CENTENNIAL PIOCHE.

The shaft at the Centennial Pioche was down 170 feet last night and Supt. William Lloyd says the lime formation through which it is passing is strongly mineralized and stained with manganese.

Mr. Lloyd is a Centennial Pioche enthusiast. Before the development of this property was begun he made the statement that he would not be surprised to see it develop into a second Prince Consolidated and he has had no reason to alter that opinion.

He says conditions at the bottom begin to look decidedly like the approach to an ore body.

## Baby Girl.

## BERGMAN ON TOP AGAIN.

Outwits a Gang of Los Angeles Black-mailers Who Have Flown.

J. S. Bergman has returned from Los Angeles where he has been engaged in routing a bunch of cheap detectives and profligate lawyers who entered into a plot to not only break up his family, but to deprive him of what property he possessed and to otherwise blackmail him.

The plot was a deep laid one, according to all accounts, and originated from certain enemies of Mr. Bergman, who had his hands pretty well tied for a time.

It seems that when Bergman returned to Los Angeles last, friends came to his assistance with the result that the detective who hatched up the scheme has left the country and disbarment proceedings begun in California against the attorney who played a part in the affair.

Mr. Bergman has succeeded in getting the suits dismissed which were begun in the district court some time ago and has also regained title to his property, which includes the Lake valley ranch in the northern part of Lincoln county.

## NEW HOISTING PLANT.

One Will Shortly Be Installed On Foster Property Near Town.

The development of the Foster property in the edge of town is progressing steadily under the direction of Alex Colbath. Judge D. D. Houtz of Provo, Utah, who was here last week and who is giving the proposition his financial backing, went home very much enthused over the proposition. Plans are being outlined for the formation of a company and the equipment of the property with gasoline hoisting plant and a compressor.

Mr. Colbath has uncovered ore identical to that which made the old Meadow Valley mine famous, and in fact, he believes he has opened an extension of the old Meadow Valley lode. In one of the workings is exposed about thirty inches of ore that has a valuation of about \$65 a ton.

The hoisting plant will be installed on the west side of the lime mountain overlooking the valley.

Dr. T. O. Duckworth expects to visit Panaca tomorrow.
